ExAM Achieve

ExAM Learning Management

ExAM Achieve is a comprehensive learning management system tailored to the needs of government and private organizations who use the ExAM tool suite. Use ExAM Achieve to create customized, gamified training programs that help you onboard employees and certify customer knowledge.

This learning management toolkit empowers your business to streamline training processes, track progress, drive user adoption, and ensure compliance. Experience the power of ExAM Achieve as it transforms your learning ecosystem, driving employee and customer development, and fostering a culture of excellence.

Founded in 2011, Millsapps, Ballinger & Associates is committed to connecting our customers' missions to meaningful outcomes through technology. Industry-leading products and platforms like ExAM4Enterprise, ExAM4Inspections, and ExAM Achieve empower enterprises to collect, manage, and understand their data as it flows through business processes inside and outside of their organization.

Catalogs

Comprehensive learning paths to help your employees and customers learn your products and processes effectively.

Units

Small, digestible learning modules designed to engage your learners with content, quizzes, and gamification.

Badges & Certifications

Reward and certify your learners' knowledge with custom badges for each unit and catalog completed.

Training Builder

Robust back-end features to track certifications, automate learning assignments, implement workflows, and provide reports and analytics.

Multimedia Resources

Enhance your organization's learning experience with videos, drawing, hotspot images, and customizable rich text.

Scalable & Secure

Powered by Salesforce and available on the AppExchange.

Understanding ExAM

ExAM stands for Extensible Assessment Manager which leverages Assess Anything technology to extract the most out of data collections and simplify business processes across a wide variety of use cases in industry and government with in Salesforce. ExAM's inspection, audit, compliance & data collection capabilities help organizations perform inspections, assessments and complex surveys.
