Overview

Millsapps, Ballinger & Associates (MB&A) is a Software as a Service (SaaS) development and consulting company focused on delivering solutions that transform data collection and its associated business processes (inspection, assessment, audit, reporting, work orders, asset and inventory management). MB&A helps government and commercial clients digitize and streamline their data collection workflows so that more time can be spent making decisions and less is spent entering duplicative data.

Make Better Clouds with Better Data

&

Empower your Decisions

MB&A offers specialized services and solutions designed to help clients architect, manage, and govern complex technology environments to maximize their investments. Their solutions are developed as Salesforce native applications inherit all of the security and compliance afforded by Saleforce's certifications and security posture. Applications can be found on the Salesforce AppExchange, Google Play, and Apple App Store as extension packages or as separate offerings.

Solutions

The ExAM offerings stand for **Ex**tensible **A**ssessment **M**anager which leverages Assess Anything technology to extract the most out of data collections and simplify business processes across a wide variety of use cases in government and industry.

ExAM4Enterprise provides **form digitization and data collection** capabilities to enable organizations to perform complex assignments and assessments. Leveraging the core ExAM platform capabilities, users can easily configure assessments and move their compliance-driven processes into the field and onto mobile devices.

ExAM4Inspections enables organizations to make complex inspections simple to perform at the office and in the field. Manage inspections and deficiencies from distribution through remediation processes and support a variety of sampling models for programs including **quality, security, health, and safety inspections** for facilities, housing, healthcare, and laboratories.

ExAM Assets enables organizations to **manage physical assets and inventory** to support new and existing business processes from **fleet to warehouse management**.

ExAM Tracker provides an easy-to-configure **work management** solution to track resource utilization and **time management** to support meaningful reports and dashboards.

ExAM Achieve provides a **learning management** toolset to simplify **on-boarding**, **badging**, and **process education**.

ExAM RV enables organizations to support virtual customer and employee engagement through **remote video.**

ExAM Connect syncs data between Salesforce orgs or with third-party data using a REST API.

Services

Implementation & Delivery Services - MB&A offers services from turnkey implementations of national standards to complex data collection programs. Our ExAM offerings and underlying technologies create a structured, sprint-based approach for all business needs.

Packaged/Consulting Services - No organization can anticipate all of its future needs today, and the requirements and mission of organizations change over time. MB&A works with you to understand your objectives and then put in place an appropriate team and process to meet your needs.

Custom Development - Some customers have extraordinarily complex missions where substantial business transformation is required over time. MB&A works with customers to architect, implement, support and govern programs and capabilities.
